

 **Bobcat.** of Barrie

614 Dunlop St W,
Barrie, ON L4M 4S4
705-726-2228

**"...outlifts everything
on the market..."**

(L to R) Austin Cleaveley (who has worked for George Boyd since he was 16 in his quarry and is one heck of a well rounded machine operator/do everything kinda guy,) George Boyd, Rebecca Hurrell, sales specialist for Bobcat of Barrie and Cole Boyd, owner of Platinum Natural Stone on a jobsite in beautiful Georgian Bay.

Cole Boyd, owner of Platinum Natural Stone in Oro-Medonte, is a 4th generation Boyd to specialize in large armour stone all over Central Ontario and he sure has a real passion for it. Since October, he has been sub-contracted on high end jobs on the waterfront shorelines in the Georgian Bay area. We met his Dad, George Boyd five years ago on a Bobcat testimonial for his business.

When asked why Bobcat® machines? George said, "The Bobcat T770 compact track loader outlifts everything on the market, and the Bobcat T870 compact track loader outlifts even more. "It plays with 5 ton rocks like its nothing. Smooth, like you were on pavement. Could lift up to 7 tons." Cole said, "I like the smoothness and comfort; doesn't hurt your back after a long day, and has great visibility too. The T870 has a lower back that allows

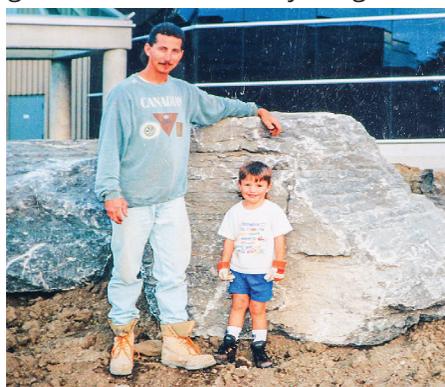

you to see more than other brands. Yes, other brands have cameras, but they are only so good until they are covered by dust. The Bobcat E85 compact excavator equipped with the Rototilt grapple is like playing a video game. It's not like work at all. It's so much fun. Quick and easy. No matter how big or small the job is, the Bobcat machines can do the job. Even if we have a job that requires a very large excavator, we need the Bobcat machines to come in first and set up work mats to be able to get that large excavator in."

When asked about working with Bobcat of Barrie, Cole stated, "Rebecca Hurrell, sales specialist, for Bobcat of Barrie is the best customer sales support we have ever received. She always gets us information we need right away. Eric in the shop is really good and knows everything about

Rototilt too. Sheldon on mobile is always on the ball and very accommodating. I would highly recommend Bobcat of Barrie." George has always used Bobcat of Barrie as well.

George also announced some exciting news while we were there; they are opening up their own Platinum Natural Stone yard with quality products for both the public and landscapers in Oro-Medonte in the next month or so at 1600 Highway 11 South. They wanted to be able to offer high quality products at reasonable prices for his customers. George of course is very proud of his son and should be. It's incredible what Cole has done at such a young age and he has such a great work ethic.

Thanks Cole and congratulations.
