**"BOBCAT ARE LEADERS IN THE
INDUSTRY FOR A REASON."**

(L to R) Kai Sørensen, president, Andrew Mavor, service director, Brandon Kaschak, director of sales, Joe Palfy, sales specialist, from Oaken Equipment (Bobcat of Toronto), Anna (Liorti) Offidani, administrator, Jonathan Liorti, estimator, Ennio Liorti, president, Frank Liorti, co-owner and Ricky Liorti, operations manager, from Metric Contracting Services Corporation.

Through dedication, smart work and attention to detail, Metric Contracting Services Corporation is recognized as one of the premier heavy civil contractors in Southern Ontario. With a clear vision of providing exceptional service in earth excavation and grading, brothers Ennio Liorti and Frank Liorti established Metric in 1978. Since then, the company has expanded its area of expertise into all areas of heavy civil construction including site servicing and land development. Metric has the expertise and resources to provide their clientele with a complete package and through their services on major infrastructure projects they have altered the landscape of southern Ontario.

When asked why they switched from another brand to now purchasing Bobcat® machines, Richard Liorti, replied "After careful consideration and demos, we decided to purchase Bobcat machines as opposed to their competitors for a few different

reasons but ultimately it came down to product and support. Being the leader in compact machines, Bobcat's T66 compact track loaders were the perfect model for what we were looking for. Small yet versatile, and Bobcat Toronto has great support with parts and service. Bobcat are leaders in the industry for a reason. Low maintenance cost, great attachments/parts availability and reliable machines."

Metric just bought eight T66 compact track loaders. "We use our T66's for a variety of reasons. For the smaller jobs where the bigger loaders don't fit to move dirt, to loading and unloading material. We also use a Bobcat sweeper attachment on them, to clean the roads."

"The Liorti family has been doing business with Brandon Kaschak, director of sales, Oaken Equipment, for over a decade, and it has been great from the beginning. Not only is he a great salesman who is honest

and transparent, but he's also a great friend to the family. And while we've only been working with Joe Palfy, sales specialist, Bobcat of Toronto (Oaken Equipment), for a handful of years now, we have nothing but high praise for him. He's always available to answer any questions we may have, and he gives us his honest and truthful opinion."

"The Liorti family wouldn't hesitate to recommend Joe Palfy and Brandon Kaschak, Bobcat of Toronto (Oaken Equipment) for your next purchase of machines."

Thank you Ennio, Frank and Ricky.
